Sound by Samuelson Receives U.S. Patent for Innovative, Integrated Bluetooth System

Fourth generation, family-owned furniture manufacturer Samuelson Furniture's visionary seating line with integrated bluetooth technology, Sound by Samuelson, is officially U.S. patented. Sound by Samuelson allows users to be immersed in the comforts of sound with the option to privately enjoy their favorite song, audio book, TV show or game system without the need of turning the volume up to an uncomfortable level for those nearby.
