

Samuelson Furniture: Happy Power Recliner

The Happy Power Recliner is a wall-hugger recliner that electronically reclines with ease, requiring just six inches of clearance. Designed for comfort, support and ergonomic posture, it features smooth lumbar and headrest support, an extendable footrest and adjustable arm, seat height, pitch and depth. Ideal for seniors or anyone seeking easier mobility, it combines sleek, modern design with mechanisms that make sitting, reclining and standing effortless in small spaces.
