1 FENIX seating collection by Norix features petal-like curves to promote relaxation and reduce stress. The slim, space-saving base design facilitates a more streamlined layout. The line's one-piece construction is tamper resistant, prevents the concealment of contraband, and allows for easy sanitation. [norix.com](https://www.norix.com)

2 The EVER CHAIR line of office chairs from Ever Chairs features a seat and back cushion system that's designed to be updated without requiring the entire frame to be replaced. The line has a 400-pound weight capacity and is available in three heights and three standard seat and back sizes. [everchairs.com](https://www.everchairs.com)

3 Arcadia's STASH wooden guest chair folds up and can be stored on the wall, stacked flat, or nested together. The seating has a 400-pound weight capacity and pairs a solid beechwood frame with molded wood seats and backs that are contoured for ergonomic support. [arcadiacontract.com](https://www.arcadiacontract.com)

4 Boss Office Products Inc. unveils its **ANTIMICROBIAL PATIENT CHAIR SERIES** featuring a commercial-grade steel tubular frame in a black powder-coat finish. The chair has a 500-pound weight capacity, wall-saver rear legs, and easy-to-clean seat and back cushions. Vinyl upholstery options include black, beige, and gray. [bossschair.com](https://www.bossschair.com)

5 Pineapple Contracts' **RYNO MODULAR SEATING** collection comes in seven options. Molded from a single piece of material, the line is designed to minimize ligature risks, while providing zero concealment opportunities. [us.pineapplecontracts.com](https://www.us.pineapplecontracts.com)

11 CONVERSA modular lounge collection from KFI Studios includes 14 seat modules for various configurations including sofas, clusters, and curved setups. Designed as 36-inch monolithic forms, the seat modules are available in a range of graded-in textiles or customers' own materials. Two table size options can be integrated with the seating or stand alone.

12 Studio TK presents the **MODUS BOB** cork stool. Made from 100 percent recycled wine bottle cork waste, Modus Bob is compostable, recyclable, carbon positive, and hydrophobic. Measuring 13 1/4 inches wide by 17 1/4 inches tall, the stool can be recycled into a new product or composted at the end of its useful life.

13 MURIEL RECLINING SOUND CHAIR by Samuelson Furniture incorporates Sound by Samuelson, a patented Bluetooth speaker system that creates an immersive experience. The seating is designed to recline with minimal effort and includes ergonomic seat and arm heights. The wing back tilts for lumbar and headrest support and the footrest extends for elevation.
