## Sources | Healthcare

---

### 1. ARCHITEX

---

[Open photo in lightbox](#)

Cane is one of three patterns in the Architex PureTech Plus+ line of performance fabrics that now also provides the protection of a moisture barrier backing. It is a bold, yet warmly textured graphic that brings visual interest without overwhelming the eye. All patterns are stain resistant, antimicrobial and can be cleaned simply with water, not to mention are Oeko-Tex 100 certified as well as Proposition 65 compliant.

### 2. SAMUELSON

---

[Open photo in lightbox](#)

Sound by Samuelson is a patented Bluetooth technology that can be embedded directly into the brand's seating, such as the Sedona chair featured here. This makes the chair itself the speaker, providing a very private and therapeutic sound immersion experience for long-term and memory care settings. It is entirely controlled by phone, tablet, or TV, avoiding any exposed wires, hole cuts for speakers and volume knobs or buttons and eliminates the universal problem of invasive earbuds.

### 3. STEELCASE HEALTH

---

[Open photo in lightbox](#)

Steelcase has once again partnered with West Elm to create the West Elm Health Collection. The line takes their iconic workplace furniture and modifies it to fit this market with clinically appropriate features like recline, metal legs, crumb sweep and high-performance fabrics. It's comprised of Slope, Sterling, Mesa and Lucas, all versatile seating options that can work anywhere from telemed pods to clinician respite rooms.

## 4. STANCE BEHAVIORAL HEALTH

---

[Open photo in lightbox](#)

Flo seating now features upholstered seats and back pads for an even higher level of comfort and style. Wrapped in healthcaregrade fabrics, the pads can be coordinated with any of the six color finishes of the seats themselves and come in a variety of graded-in Cryptons and vinyls from any of Stance's fabric partners. The seat's rounded corners and edges achieve increased safety. The collection also features a table with a laminate surface and pick-proof molded polyurethane edges.

## 5. HAMMERTON STUDIO

---

[Open photo in lightbox](#)

Amongst Hammerton Studio's numerous 2023 releases is the high-performing Avenue outdoor sconce. The offering features crisp architectural lines with a peek-a-boo glass detail underneath any of three different AAMA 2604 powder coat finish options for UV and corrosion resistance. Both the 18 in. and 26 in. models are ADA and IDA Dark Sky compliant, crafted from aluminum with a marine grade pre-treatment.

## 6. OM SEATING

---

[Open photo in lightbox](#)

Stark. Clinical. Unfriendly. No more. Plot Twist has significantly warmed up the doctor's office. This mobile, swiveling pouf marries comfort to function with its sit-stand/height adjustable tablet arm that orbits around the seat for ambidextrous use. Designers Chris and Jon Panichella of Achella Design also added an optional backrest and self-retracting nautical rope handle. Choose from a skid base or optional casters.

## 7. INDIANA FURNITURE

---

7

[Open photo in lightbox](#)

Gleem+ is a healthcare-focused seating line, hot off the presses. Launched in January, it builds off the original Gleem line by adding an array of high occupancy and bariatric models that can accommodate a diverse range of users. It also includes a range of ganging and freestanding tables. Optional back styles and arm caps can be paired with graded-in and contract upholstery and/or wood finishes to achieve a uniquely customized look.

## 8. ECOSUPPLY

8

[Open photo in lightbox](#)

Tekstur panels can add a not just decorative but also protective element to any space. Antimicrobial and unsusceptible to staining, they are constructed from paper composite materials made of various percentages of recycled/renewable materials and eco-friendly resins. There are also NSF, FSC certified and Green-guard certified options. Apply to walls, furniture and millwork or use them to build a solid or screened privacy partition.

## **9. SKY FACTORY**

---

[Open photo in lightbox](#)

Revelation SkyCeilings feature larger modular image panels (up to 4 ft. × 6 ft.). Previously published research in the Health Environments Research and Design Journal says that illusions of nature can decrease acute stress by more than 53%. They can also dissipate

feelings of claustrophobia in more enclosed exam rooms as featured. Choose from a variety of images as well as either the standard EcoPlus LED lighting system or the low-profile EcoSlim system (each requiring a different vertical clearance.)

## 10. LEVITON

---

[Open photo in lightbox](#)

WavePort disinfecting technology is now available embedded into Certolux MSUDFX luminaires and does not sacrifice the quality of visible light in places where it's needed most, such as surgical suites, operating rooms and lab settings. It provides a controlled amount of UVA light to reduce bacteria on surfaces and is suitable for 24-hour human exposure.

## 11. BRENTANO

---

[Open photo in lightbox](#)

Interval is a chunky abstract with a handmade feel that creates a warmth and comfort vital to healthcare settings. It's woven with 52 percent post-consumer recycled polyester and a 100% solution-dyed nylon warp. The fabric is also bleach cleanable with Alta finishing and acrylic backing. Abrasion resistance is at 100,000 double rubs on Wyzenbeek and Cotton Duck. Choose from nine different color combinations.

## 12. ARTAIC

---

[Open photo in lightbox](#)

Oasis is a new addition to The Flourish Collection of mosaic tiles that explore the shapes and colors of botanicals. This pattern brings the beauty of nature and abstract watercolor art to healthcare spaces, achieving a calming effect for both patients and staff alike. Six color options are available and customizable (as is tile material and the design) through Artaic's robotic technology. It comes in 3/8 in. vitreous glass tiles.

## 13. HAT COLLECTIVE

---

[Open photo in lightbox](#)

The Tango Cart is the perfect dance partner for today's healthcare providers. Two models come non-powered (Tango Cart with Keyboard Tray and Tango Cart Laptop) and the third with 450 watts of power and lithium iron phosphate battery usage up to 13 hours (Tango Cart with Keyboard Tray and Monitor Mount). A generous worksurface of 20 in. W ÷ 12 in. D is provided with the ability to add baskets or bins, a universal CPU holder and a track for integrated cable management.

## 14. ALLSEATING

---

[Open photo in lightbox](#)

The Ruhe collection, designed by principal of Studio3 Mike Shields, is meant to evoke a feeling of home and comfort for its namesake—the word meaning "rest" in German. Options abound with guest, patient and lounge seating with lots of arm and leg variations, all based off a light, thin profile frame of 14-gauge steel to support up to 400 pounds (on most models.) Table offerings are also included.

## 15. MANNINGTON

---

[Open photo in lightbox](#)

Open Range is a plank format rubber flooring in 12 warm, neutral tones that remind the eye of organic elements such as marble's veining and the grain of various woods. Made of Mannington's thermoset rubber "recipe," the line achieves not just slip resistance but is also one that resists indentation, cracking and scratches due to low clay and high pigment content. Thermoset rubber also provides better acoustics and greater comfort underfoot with low maintenance requirements.

## 16. VISA LIGHTING

---

16

[Open photo in lightbox](#)

The Sole lighted mirror for behavioral health applications features impact-resistant mirrored polycarbonate and tamper-proof hardware. Its sources are minimum 90 CRI standard with an optional amber LED night light. Choose from a rectangular (20 in. W × 30 in. H and 3 5/8 in. recessed depth) or oval model (23 7/8 in. W × 33 7/8 in. H and 3 3/4 in. recessed depth) with an optional antimicrobial coating on the frame that contains no VOCs.
