U.S.-MADE HOSPITALITY PRODUCTS

ABBY ELYSSA

0 SHARES

Hospitality product manufacturers are showing their patriotism year-round with products made in America. Take a look:

Samuelson Furniture

#8942 Bar Amenity Cabinet: The American-made #8942 Bar Amenity Cabinet is detailed to balance elegance and efficiency. A lower cabinet with stone top contains mini-fridge storage with a drawer above for snacks or supplies. The upper section, supported by a gunmetal stainless-steel frame and polished stainless-steel accents, includes a middle cabinet with frosted-back glass doors, the perfect spot for a coffee maker and amenities storage. Glassware can be well placed in the open cabinet above, highlighted with LED puck lighting and striking mirrored backdrop.
