1

Samuelson Furniture introduces the **MON-ROE CHAIR** with a fully upholstered upper section and ample seat cushion. Design features include gently sloping arms; finished front legs with optional ball casters; and back legs in a single, connected "U" shape with brass cap detailing. A discreet tilting system moves the seat to expose a drop-through frame for easy cleaning and maintenance.

5

Interwoven's **EZZERI** collection, designed by David Ritch and Mark Saffell of 5D Studio, includes loungers and chairs for patients. Both products are offered with straight or wing back styles, while the seats are available with a moisture barrier option. The patient chair features wall-saver legs and adjustable glides. The patient lounger can be static or reclining.
