

Samuelson Furniture Delivers Comfort and Independence in Motion with New Happy Power Recliner

NOVEMBER 29, 2025 · OFFICING.COM EDITORIAL STAFF · SEATING, SEATING - LOUNGE, SENIOR LIVING

Samuelson Furniture has launched the Happy Power Recliner, a wall-hugger recliner that electronically reclines with ease, designed for convenience and support. It requires only 6 inches of clearance to fully recline, maximizing space while providing comfort. The chair features an ergonomic design that enhances user mobility, making it easier for individuals, especially seniors, to sit, stand, and relax. Its modern design includes lumbar and headrest support, an extending footrest, and adjustable arm and seat height to promote a healthy sitting posture. Samuelson Furniture is a fourth-generation family-owned company specializing in high-end hospitality and senior living furniture.
