Furniture

Samuelson Furniture's Phorm Meissa Table is a minimal, square-framed, contemporary end table that supports a circular-shaped stone at the base and a hexagon-shaped stone top. (Samuelson Furniture)

Samuelson Furniture has released several new furnishings suitable for guestrooms and lobbies.

The Phorm Meissa Table is a minimal, square-framed, contemporary end table that supports a circular-shaped stone at the base and a hexagon-shaped stone top.

Through a mix of geometric shapes, Samuelson Furniture's Phorm Safo Table has an antique-finished, stainless-steel frame. The contemporary table's minimal open structure supports a circular stone at the base and a stone polygon shape at the top. Stone shapes are optional, allowing for a range of options.

Samuelson Furniture's #8918 cocktail table has a lacy stainless-steel pattern with interior brushed brass and exterior rubbed oil bronze. A glass top enhances the light as it filters throughout the design.
